This Target is a very weird one. There are different sense. one there is this cone shape energy scan thing I see multiple times in the section. There seems to be a pointy structure with sand around it. one of the structures had humans working on ~~one~~ something that was very complex and important. The humans had anxiety There was a crash of some thing that made a huge shockwave.

Remote Viewing Tasking

Target ID: 8281-7511

Target:

The anti-aging intervention that becomes mainstream and changes demographics. (that arises from civilian innovation) that will improve resilience against global risks, especially regarding education.

Target Time:

The time when this development first begins producing large-scale societal effects.

◆ HRVG Structured Tasking

Focus 1 – Site

Describe the location where this development originates or is being implemented.

Focus 2 – Activity

Describe what is occurring at the target site at the target time.

Focus 3 – Subject A

The individual or group primarily responsible for creating or controlling this development. Describe Subject A and their intentions.

Focus 4 – Subject B

The population or group most affected by this development. Describe Subject B's experience.

Focus 5 – Purpose

What is the true function of this development?

Focus 6 – Outcome

Describe the long-term result of this development for humanity.
